

# Di's Designs Sizing Chart

At Di's Designs, our years of experience in pattern making and sizing athletes, have taught us that the most accurate way to ensure proper fit is to rely on body measurements. Our competition fit is a sleek fit intended for athlete's to look their best on the competition floor. An individual's perception of fit may vary greatly; however, our Di's Designs Competition Fit has been developed to stay in place and to ensure the "Best Bums in the Business"!

## How to measure

The goal of measuring is to determine the correct size to order for each athlete. Accurate measurements are vital to the proper fit of your athletes' leotard. Please make sure all athletes are wearing fitted clothing, ideally a leotard, while taking measurements. All measurements are taken in inches, and should be rounded up to the next full inch if they are halves or quarters.

1. **Chest Measurement**- Measure around the fullest part of the chest. Have the athlete relax with their arms at their side. Your measuring tape should be parallel to the floor.
2. **Waist Measurement**- Measure around the natural waist, which is the narrowest part of the waist. Your measuring tape should be parallel to the floor.
3. **Hip Measurement**- Measure around the fullest part of the buttocks with the athlete's feet together. Your measuring tape should be parallel to the floor.
4. **Torso Measurement**- Measure from the center of the shoulder, down the torso, through the legs, and back to the shoulder. The measuring tape should be flat against the curve of the back. This is the most important measurement you will take when measuring the athletes.

18 (AXL)	43+	35+	43+	66+	70+

\*Long torso is a \$10 custom fit fee. Not available on in stock leotards.

## Important

- If one of the athlete's measurements falls into a different size category, choose the size where the majority of measurements fall. If ONLY the torso measurement falls into a larger size, we recommend the 'long torso' option.
- If two of the athlete's measurements fall into different size categories, choose the larger size.
- If three or more measurements fall into different size categories contact us with the athlete's measurements. We would be happy to help you find the perfect fit!
