

## Gymnastics Saskatchewan Request for Temporary Certification Recognition

Clubs may request a temporary exemption for a coach who does not hold a full certification to be able to take the responsibilities normally permitted only to coaches having a full certification. The request is subject to approval by a Gymnastics Saskatchewan staff and will temporarily allow the coach who is in the process of completing their certification to be covered in their functions and responsibilities like a certified coach. The application must be completed in full and prove that the responsibilities given to the non-certified coach are reasonably safe, and consider the coach's ability and environment that they will be in.
