

Athlete Medical Withdrawal (Update)

In these ever-changing COVID times, we feel that refunds need to be given for additional reasons, so we are adjusting the medical withdrawal statement outlined in our meet package.

With that said, it is also important that we are also able to efficiently execute the competition.

We suggest the parents test their athletes to ensure their athlete is negative 2 days before the meet and then again the day before. This will allow sufficient notice to be provided to receive a refund.

Athlete Medical Withdrawal (Updated)

All medical withdrawals, includes withdrawals for positive COVID tests and those **not fully vaccinated with a close contact**, will be accepted 24 hours prior to the athlete's competition day, **minus a \$25 administration fee**, emailed to the Meet Director. NO direct emails from the families, only the clubs please. No medical note will be required.

Virtual withdrawals will be accepted until **February 21st at 10pm** via email to the Meet Director.

To show an example;

If you are to compete Saturday, your club will need to email by 10am Friday, if you compete Sunday, then the club will need to email by 10am Saturday.

Unless, where you compete in the last session (evening) of the day, we would need to be notified by 5pm of the previous day.
