Provincial Championships

Update June 15, 2022

INTRODUCTION

Gymnastics Saskatchewan thanks you for your interest in hosting the Provincial Championships. This document is designed to help guide you through the bidding process. If you have any questions please feel free to contact the Gym Sask office.

1.1 Gymnastics Saskatchewan's Vision and Mission

Empower and inspire champions.

Gymnastics Saskatchewan provides high-quality, safe, inclusive and positive opportunities for the growth, development and enjoyment of gymnastics in Saskatchewan.

1.2 Provincial Championships

The Saskatchewan Provincial Championships are above all else, the peak competitive event for our provincial and national athletes who have strived over the season to qualify to attend this annual competition. These Championships, therefore, should be conducted and planned with an overlying theme of excellence in mind. Only our best athletes will be in attendance at all levels vying for the title of Provincial Champion.

Gymnastics Saskatchewan is committed to working closely with our member clubs to host an annual Provincial Championship event that will promote and celebrate the accomplishments of our provincial and national athletes. Whenever possible, it is our preference that all four gymnastics disciplines will compete on the same weekend and in the same venue in order to present a true showcase of all of our competitive programs and athletes.

1.3 Hosting Strategies and Vision

- To annually deliver a combined artistic, rhythmic and trampoline/tumbling event that brings together the provincial gymnastics community at all levels, sets a new and higher standard of hosting excellence, and showcases all four gymnastics disciplines to our members, and to the Saskatchewan public and the media.
- To enable Saskatchewan gymnastics, coaches, judges and volunteers to work together on a local major event.
- To continue to develop positive relationships with club and Gym Sask funding agents, sponsors and suppliers.
- To promote equity, unity and teamwork amongst our members in our four disciplines.
- To provide meaningful competitive opportunities for provincial and national level athletes.
- To create opportunities for a sense of “community” within our gymnastics family and our members.

1.4 Goals & Objectives

- That the planning and technical execution for Provincial Championships be athlete focused, and incorporates and balances the needs and expectations of artistic, rhythmic and trampoline/tumbling programs
- That the hosting of Provincial Championships integrates and fosters the many other benefits to Gym Sask, to our member clubs, (recruiting members, media, promotions, prestige), of developing partnerships, and of bringing the gymnastics community in Saskatchewan together.
- That hosting clubs and management teams/organizing committees for Provincial Championships be provided with the financial and professional Gym Sask staff organizational assistance to ensure the success of the planned events.
- To provide significant grant funding (MAP) to clubs hosting Provincial Championships to make bidding for and hosting a Provincial Championship financially viable and enticing.
- To create a “brand” for Provincial Championships by standardizing protocol and awards as much as possible.
- To showcase Provincial Championships to the public, spectators, participants as a high profile special event. To create a special atmosphere at the event via more professional announcers, decorations, image design, local television broadcasts, signage, standardized awards presentations, etc.

- AA winners receive a trophy and a Provincials medal. There are no awards/certificates presented solely for participation in any discipline, as Provincials is a high level competitive event for the best competitive athletes at each level in the province. That all athletes in all disciplines, no matter how many events they compete, are included in All Around results and awards.
- To create new Team/Club awards, when warranted by numbers of club entries, to reward clubs for excellence in competitive programming and athlete development.
